DUAL-SLIDING SHOWER DOORS WITH A BOLD, INNOVATIVE ALL-GLASS DESIGN

Reducing the number (and prominence) of metal components has been an industry obsession for years. But **310 Tempering** has taken things to a *whole* new level of frameless with their Phantom Series shower doors! The Phantom debuts a game-changing **glass header system** that allows these units to anchor high-end bathrooms without dominating them.

PHANTOM

HARDWARE OPTIONS

The Phantom Series swaps out the traditional metal header and stoppers that most sliding systems employ with a revolutionary **glass header system** and **clear acrylic stoppers**. The towel bars and rollers are the only metal components, and are available in **chrome**, **brushed nickel**, and **oil rubbed bronze**.
