

SERENITY

SINGLE-SLIDING SHOWER DOORS WITH A STYLISH LOW-PROFILE DESIGN

The Serenity shower door system won Glass Magazine's **Most Innovative Bath Enclosure Product Award** for a reason: its revolutionary design. The Serenity features a unique, **low-profile header support bar**, stylishly facilitating **one sliding door** and **one fixed glass panel**. These smooth and sturdy units sport minimal hardware, making the door and panel almost appear as if they are floating

HARDWARE OPTIONS

High-quality, smooth gliding rollers sit atop the header bar, allowing the door to slide open effortlessly. **Anti-lift fittings** on the bottom of the door system ensure stability upon installation. A variety of door handles, towel bars and robe hooks are available in **polished stainless, brushed stainless** and **oil rubbed bronze**. These customizable options allow you to aesthetically match your decor, as well as functionally meet your needs.
